PumpOut Shield™

The Safer & Healthier Solution to Waste Water Removal.

- **Easy to Install**
- **Protects Client's Walls & Floors**
- **Reduces Clean-up**

The **PumpOut Shield™** protects against discharge water splashing and damaging walls and floors. It is designed for any truck mounted or portable pump-out system. It fits virtually any toilet. No more worrying about discharge hoses causing damage. Simply lift the toilet seat, place on the bowl, pull the bungee cord around back of seat base and place hook into eyelet. Connect your 3/4" pump-out hose (garden hose type) and you are ready to safely discharge your waste water. Make a great impression on your customers. Back-to-Back male connector is included. One year guaranty. Net weight 3.5 lbs.
